

HAND MADE LUXURY. INFUSED WITH NATURE.™

The **Aireloom** Natural Hybrid Bamboo bed system combines the comfort and health of natural materials with a more cost effective approach to design and construction of luxury beds. A finished **Aireloom** Natural Hybrid Bamboo bed may be the sensible environmental investment in today's cost-conscious world. Natural materials – such as cotton, bio-based luxury foams, and soft and supple bamboo fabrics are used. The unique “no drum” design in our Bamboo Plus models conforms to every body shape and relieves pressure from every part of your body while providing the proper body temperature.
