

WHAT'S FOR DINNER?

Broyhill Northern Lights

Fresh and clean, Northern Lights by Broyhill captures the spirit of contemporary living. These dining furnishings demonstrate purism exemplified in straight edges, comfortable proportions, and minimalist adornment. The dark walnut stain finish has unexpected depth and richness, complementing light and dark tones in the surrounding room. Satin nickel finished hardware provides just the right amount of contrast to the dark wood finish.

Northern Lights is crafted for years of enjoyment by family and friends. The dining table extends to 78" and includes a shelf on the table base for additional storage, keeping clutter to a minimum. The collection's chairs are generously scaled for optimum comfort. The dining chest combines display and storage with four drawers, wood and glass shelves, lights, mirrored back, and removable wine storage.

Northern Lights combines Broyhill Furniture's renowned craftsmanship, superior design and affordable value.
